***Allowable Subject Matter***

***Drawings***

Formal drawings are required in this application because the applicant submitted the drawings which sent on 12/04/03 are not clear to see and informal hand-writing drawings.

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

The following is an examiner's statement of reasons for allowance:

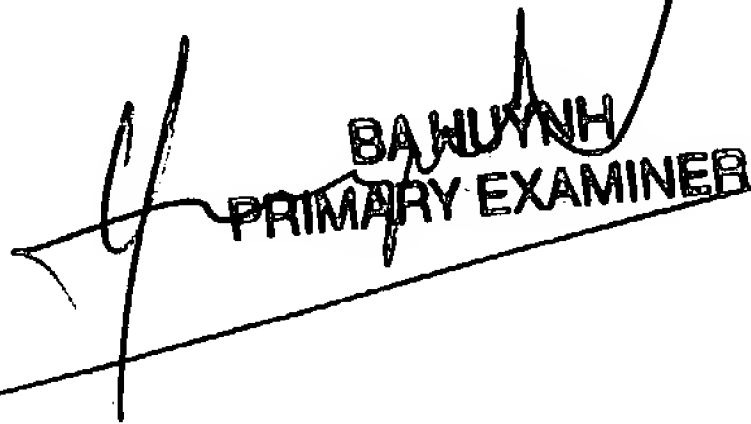

The Examiner has carefully considered the independent 8 and 22. The "method" and "system" for "storing, authoring, and viewing various forms of digital" as claimed was not taught or suggested by the prior art. Means for displaying the plurality of media objects in reduced visual representation in at least one track and means for navigating among the reduced visual representations are well known in the art as taught by Morris et al. [US. 6,097,389]. While Morris shows plurality of media objects, Terao [6,604,165] teaches the cartridge having a slot for receiving a removable memory device. However, the independent claims, when considered as a whole, are allowable over the prior art of record. Specifically, none of the references teach or suggest means for navigating among the reduced visual representations having a mean for selecting the media object
